E. Interconnection Compliance & Owner Acknowledgement

- The electrical system referenced above shall meet the PUD’s “Interconnection Standards for Customer-Owned, Grid Connected Electric Generating Systems of 100kW or Less.”
- Customer shall be solely responsible for obtaining and complying with any and all necessary easements, licenses and permits, or exemptions, as may be required by any federal, state, local statutes, regulations, ordinances or other legal mandates.
- The customer shall submit documentation to the PUD that the system has been inspected and approved by the local permitting agency regarding electrical code requirements.
- Customer shall not commence parallel operation of the generating system until inspection and written approval of the interconnection has been given by the PUD.
- This Application Form shall be Appendix A to the PUD’ “Interconnection & Net Metering Agreement.”
